

BUSHING LINER

VIRTUALLY ELIMINATE NOISE, VIBRATIONS & HARSHNESS

ABOUT US

Located in Rochester, NY, USA SEM Specialty Products (SEM SP) has a long history of innovation & responsiveness to customer's needs. SEM SP works with our clients to design the ideal product to suit their requirements. SEM SP's proprietary Bushing Liners, when incorporated into your rubber or urethane bushings, virtually eliminate noise, vibration, harshness and provide noise free feature longer than any other internal lubrication method available on the market today.

The 100% TEFLON filament pile woven into the fabric gives a clean, oil free surface that will perform for the life of the bushing. It requires no maintenance and substantiates the reliability and long life advertised by the automobile manufacturers and aftermarket suppliers who use SEM SP liners.
