

BRUSH SWEEPS

MEETING YOUR REQUIREMENTS FROM START TO FINISH

ABOUT US

Located in Rochester, NY, USA SEM Specialty Products (SEM SP) has a long history of innovation & responsiveness to customer's needs. SEM SP brush sweeps mount on the interior or exterior face of doors and fills gaps 1/16" to 5/16".

- Uses our Polybond or Fin Seal product which is available in a variety of pile heights, colors, materials and backer sizes.
- Usually mounted in a T slot, but could be applied with tape or into a kerf.
- Seals out dirt, dust, moisture, air, noise, insects, etc.
- Decreased operating forces over other types of door sweeps.
- The base material and the pile material can be combined into one seamless piece ask us for details!
